Generally, where is your business located in Mount Holly?

Why not?

It wouldn't benefit me or my business

Regardless of whether you are or if you are not a business person, are there any businesses that, if located in Mount Holly, might complement or enhance your own business through more business-to-business actions?

Anything that would make Mount Holly a desirable place to live.....preserve historical buildings/homes, improve waterways for launching and docking kayaks. Improved township parking areas in residential areas (for example: the one behind Mill Street near Buttonwood has large mud holes in it)

Please use this space to offer any suggestions for the Township to incorporate into its Downtown and Urban Enterprise Zone:

1. The waterways in downtown should be of utmost importance (from maintaining to creating docking and launching kayaks)
2. Historic preservation. We should have a preservation board to insure historical integrity in our town and perhaps funding to help restore homes/buildings.
3. The Stephen Girard home should be memorialized into a museum/education or historical workspace. It should not be a rental on Mill Street. The home has historical significance for our nation. If the township were to own it.....many grants are available to restore the home.
4. Areas such as around the fountain, Rotary Park need to have someone maintain these areas by weeding, plantings, and watering the areas. There are also other areas in downtown that would benefit from such a program.
5. Placards for historical homes
6. Walkways such as the rail trail improved....others created such as around Woolman Lake, by Rancocas Creek.

Generally, where is your business located in Mount Holly?

What are some of the challenges Mount Holly's UEZ program currently faces? [Select all that apply]

Lack of financing, Poor infrastructure in the Zone, There are too many regulations, Marketing and visibility of the Zone needs to expand

Regardless of whether you are or if you are not a business person, are there any businesses that, if located in Mount Holly, might complement or enhance your own business through more business-to-business actions?

1. Sustainable eateries (ones w/ sufficient financial backing, marketable product & enough business sense to last longer than 6 months) 2. Entertainment (something to complement the eateries & increase foot traffic downtown: community theater, maker space, encourage RCBC to offer a monthly evening cooking classes for non-students, etc) 3. Not a business, but Mount Holly needs a program of regularly scheduled foot traffic generating downtown entertainment activities. Critical to have a scheduling coordinator associated with the UEZ/Township. The schedule should show activities at least once monthly (or more if possible) on the same day each month. The entertainment could be the responsibility of volunteers/service organizations/ religious groups/schools, etc. MSMH Promotions could do the marketing.

Please use this space to offer any suggestions for the Township to incorporate into its Downtown and Urban Enterprise Zone:

1. Our greatest asset (1 no other town has) is the 1 hour waterway tour a visitor (or resident) can take that floats them right through the downtown & allows them to stop at eateries, breweries & shops along the way and it is currently being completely choked by silt & becoming unpassable by watercraft. There is a fix & the UEZ needs to employ it. 2. Reintroduce the UEZ business grant programs that were so successful for decades (facade grant for exterior improvements, interior grant for both equipment purchases and interior improvements.) These grants have been critically beneficial to our Mount Holly businesses. 3. A uniform branding message (logo, tagline, etc) for Mount Holly with a strong program marketing the town as a place to dine, visit, shop, reside, locate a business would be important. MSMH and MRV are currently working on a branding/marketing project and coordinating with that effort plus coordinating and connecting all of the websites would make all components stronger.

Didn't renew this year - cost me more money to have bookkeeper file monthly sales tax and have yet to see or understand the benefit to my business.

Regardless of whether you are or if you are not a business person, are there any businesses that, if located in Mount Holly, might complement or enhance your own business through more business-to-business actions?

My business would greatly benefit from other RETAIL establishments. Downtown Mount Holly is not a shopping destination. It's not enough to have food, liquor, and dispensaries. My shop is a destination to my customers and I do get the occasional customer that is browsing and exploring the town or killing time but that is few and far between.

Please use this space to offer any suggestions for the Township to incorporate into its Downtown and Urban Enterprise Zone:

Go door to door to businesses and find out what they need! Stop making decisions about how to spend the UEZ money without first understanding our needs. Many of us are struggling to stay afloat with the dwindling foot traffic and economic changes (among other challenges) - we need township support and support from state programs that are in place to help US. We don't need town-wide surveillance or speaker systems. Be for real.

In mind, I can actually picture High Street being closed to traffic from the intersection by the Washington house to the intersection by the fountain. I can envision it being turned into a pedestrian zone. There are plenty of ways to get around that area. Restaurants could set outdoor dining. People could walk without having to dodge traffic. It would make it so much more peaceful and inviting..
